## Education

<b>Institution</b>	University of Engineering and Technology, Taxila
<b>Year</b>	2010-2014
<b>Qualification</b>	BSc Computer engineering

---

<b>Institution</b>	Masali Zakariya Higher Secondary School, Peer Jahaniaan Muzaffargarh
<b>Year Completed</b>	2008-2010
<b>Qualification</b>	Pre-engineering

---

<b>Institution</b>	Govt. Higher secondary School Chowk Sarwer Shaheed
<b>Year</b>	2006-2008
<b>Qualification</b>	Matric with science Subjects

## Completed Projects

### **Wilshire Financial Network (California)**

url: <http://wilshirefinancialnetwork.com/>

app: <http://wilshirefinancialnetwork.com/app>

#### **Details:**

I developed this web application most recently using php framework codeignier, ajax calls, jquery, html/css, bootstrap along with mysql database. I desgined the database myself including the web design and complete coding.

Major features of this successful projects are:

- Dynamic dashboard featuring statistical graphs and tables
- Four kinds of different user roles management
- Automatic email response
- JQuery calculations for complex formulas related upto 15 fields
- Automatic filling of required fields using vlook table from database
- Help and support feature
- Complete check and balance for admin role of project over all providing admin panel
- Importing csv files to insert data in bulk
- Exporting reports in pdf and other formats
- Uploading and downloading useful data
- User manual system using documents and videos for new clients

### **The Lodge (UK)**

url: <http://thelodge.co.uk/>

app: <http://thelodge.co.uk/dev>

#### **Details:**

I developed this project for a lodge in uk. I provided a complete web based application built in codeigniter for enquires management and bookings and reservations in the guest house.

Major features of this project include:

- Different rights for clients and admin
  - Complete served admin panel for CRUD actions
  - Dynamic dashboard with featuring the color change and column change of entries regarding the date
  - Ajax calls to show multiple data table from different tables from db
  - Message communications system b/w client and admin
  - Automatic email responses including editable email sendings
  - Paypal integrating along with calculation of bills and payments
- 
- <http://tyrepoint.pk/> : Go cart website for a leading company in my city including the features of complete served admin panel which enables admin to manage the html of front , manage the orders and enter the contents for website  
and many more.....
  - Other project related to other technologies:
- 
- Digital Clock
  - Water level detector system
  - Light or dark sensor system for security purposes
  - Digital Day planer in java
  - DTMF controlled car using microcontroller and without microcontroller
  - DHCP, EIGRP for controlled access in CCN
  - Data Base Management of White Pearl Association on Desktop Application
  - Bunch of WordPress Websites

### **Why should be I preferred**

- Interpersonal skills
- Leadership qualities
- Excellent Communication skills
- Self-motivated and team oriented
- Always believe in teamwork
- Familiar with professional environment with almost 6 month experience
- Ability to deal with clients resulting positive results
